

DIGITALISATION AND PROJECT TEAMS

This survey aims to understand how digitalisation is changing project teams, their composition, collaboration, role clarity, and overall effectiveness. Your responses will help us describe the current state of digital transformation in projects and identify future research directions. All responses are anonymous and confidential.

SECTION A: UNDERSTANDING OF DIGITAL TRANSFORMATION

1. Which of the following characteristics best describe what digital transformation means to you? (Select all that apply)

- ☐ Adoption of new digital tools (e.g., project management software, dashboards)
- ☐ Automation of tasks and processes (e.g., using bots, RPA)
- ☐ Integration of AI and data analytics in decision-making
- ☐ Moving services or infrastructure to the cloud
- ☐ Redesigning business processes for efficiency and agility
- ☐ Enhancing customer or client experience using digital technologies
- ☐ Developing new digital products or services
- ☐ Changing organisational culture to support digital ways of working
- ☐ Upskilling team members for digital capabilities

SECTION B: TYPE OF DIGITAL TRANSFORMATION PROJECTS

2. To what extent are you currently involved in the following digital transformation project(s)?

	To a very small extent	To a small extent	To a moderate extent	To a large extent	To a very large extent
2.1. Implementation of project management platforms or collaboration tools					
2.2. Business process automation (e.g., workflow automation, RPA)					
2.3. AI and machine learning integration projects					
2.4. Data analytics and business intelligence projects					
2.5. Cloud migration or infrastructure modernization					
2.6. Development of digital products or services					
2.7. Cybersecurity enhancement initiatives					
2.8. Digital customer experience or engagement initiatives					
2.9. Change management or cultural transformation programs					

SECTION C: TEAM MEMBERSHIP

3. To what extent are the following types of entities part of your project team?

	To a very small extent	To a small extent	To a moderate extent	To a large extent	To a very large extent
3.1. Internal employees					
3.2. External consultants					
3.3. Clients or end-users involved in the project					
3.4. Automated systems (e.g., robotic process automation, bots handling routine tasks)					
3.5. AI-powered tools (e.g., predictive analytics engines, machine learning models, chatbots)					
3.6. Digital dashboards (e.g., project performance dashboards, real-time KPI trackers)					
3.7. Collaboration platforms (e.g., Microsoft Teams, Slack, Jira, Asana) functioning as central coordination hubs					
3.8. Decision-support systems (e.g., AI-assisted project portfolio management tools, scenario modeling tools)					
3.9. Knowledge management systems (e.g., digital wikis, automated knowledge repositories)					

4. How would you say your project team is changing due to digital transformation? (Select the most appropriate option).

- ☐ No change still only Human-only team
- ☐ Human-only team previously now transforming to Human–technology hybrid team
- ☐ Human-only team previously now transforming to Technology-led team
- ☐ Human–technology hybrid team now transforming to Technology-led team
- ☐ Any other classification not listed?

5. To what extent do automated systems or AI tools participate in your team's work?

	To a very small extent	To a small extent	To a moderate extent	To a large extent	To a very large extent
5.1. Execute routine tasks					
5.2. Assist in decision-making					
5.3. Monitor team progress					
5.4. Facilitate communication					
5.5. Replace human roles					

SECTION D: ROLE CLARITY

6. To what extent do you agree with the following statements?

	Strongly disagree	Disagree	Neutral	Agree	Strongly agree
6.1. I clearly understand my role within the project team					
6.2. My team has clearly defined roles for each member					
6.3. I understand the specific tasks that digital tools or AI are responsible for					
6.4. The division of responsibilities between humans and digital tools is clear					
6.5. When new technologies are introduced, their roles are communicated effectively					

SECTION E: TEAM COLLABORATION

7. To what extent do you agree with the following statements?

	Strongly disagree	Disagree	Neutral	Agree	Strongly agree
7.1. Our team shares information openly and frequently					
7.2. Digital tools help us collaborate more effectively across locations					
7.3. Trust among team members is strong					
7.4. Technology has helped us coordinate work better					
7.5. Communication is smooth even when using digital platforms					

SECTION F: TEAM PERFORMANCE

8. To what extent do you agree with the following statements?

	Strongly disagree	Disagree	Neutral	Agree	Strongly agree
8.1. Our team consistently meets project goals					
8.2. The use of digital tools has improved our team's performance					

8.3. Our team adapts quickly to changing demands					
8.4. Project tasks are completed on time and within budget					
8.5. Technology supports timely and informed decision-making					

SECTION G: TEAM DYNAMICS

9. To what extent do you agree with the following statements?

	Strongly disagree	Disagree	Neutral	Agree	Strongly agree
Team fluidity					
9.1. Team membership changes frequently in our project					
9.2. Our team often adapts to new or departing members					
9.3. Shifting team composition affects our workflows					
Team overlap					
9.4. Many team members work on multiple projects simultaneously					
9.5. Competing demands from other projects affect our team's focus					
9.6. We coordinate across multiple project teams regularly					
Team dispersion					
9.7. Our team is geographically distributed					
9.8. Time zone differences affect collaboration					
9.9. We rely heavily on digital communication due to team dispersion					

SECTION H: SOCIAL INTERACTION

10. To what extent do you agree with the following statements?

	Strongly disagree	Disagree	Neutral	Agree	Strongly agree
Impact on Social Connection					
10.1. Since adopting more digital tools, I feel less socially connected to my team members					
10.2. Digital communication tools have reduced opportunities for informal conversations					
10.3. Virtual meetings leave little space for casual or non-task-related discussions					
10.4. I miss the spontaneous interactions (e.g., hallway chats, coffee breaks) we used to have					
10.5. Team members appear more task-focused and less socially engaged in digital environments					
New forms of social interaction					

10.6.	Our team has found new ways to socialize digitally (e.g., virtual coffee chats, informal channels)					
10.7.	We use tools like chat apps or emojis to express ourselves socially in digital spaces					
10.8.	Digital tools allow for inclusive social interaction even across locations and time zones					
10.9.	I feel comfortable engaging socially with colleagues via digital platforms					
10.10.	Team-building activities have been adapted to our digital environment					

SECTION I: CHALLENGES WITH DIGITALISATION

11. To what extent are you **currently** experiencing the following challenges regarding the introduction of technology or digitalisation in your project team?

	To a very small extent	To a small extent	To a moderate extent	To a large extent	To a very large extent
11.1.					
11.2.					
11.3.					
11.4.					
11.5.					
11.6.					
11.7.					
11.8.					
11.9.					
11.10.					

12. To what extent do you anticipate the following challenges in the **future** regarding the introduction of technology or digitalisation in your project team?

	To a very small extent	To a small extent	To a moderate extent	To a large extent	To a very large extent
12.1.					
12.2.					
12.3.					
12.4.					
12.5.					

12.6. Over-reliance on technology (loss of human touch)					
12.7. Cybersecurity and data privacy concerns					
12.8. Budget constraints for digital initiatives					
12.9. Increased workload during transition					
12.10. Lack of management support					

SECTION J: TEAM SUCCESS

13. To what extent do you agree with the following statements?

	To a very small extent	To a small extent	To a moderate extent	To a large extent	To a very large extent
13.1. Our project team has successfully integrated digital tools into daily workflows.					
13.2. Digital technologies are now an essential part of how our project team operates.					
13.3. Our project team regularly use data-driven insights (e.g., dashboards, analytics) to guide project decisions.					
13.4. Our project team has restructured processes to fully leverage digital tools and platforms.					
13.5. Digitalisation has improved our project team's efficiency and effectiveness.					
13.6. The digital tools and processes our project team use add clear value to our project outcomes.					
13.7. Our project team's digitalisation efforts are progressing at a satisfactory pace.					

14. Describe in one sentence the impact digitalisation has on project teams based on your experience?

---oooOOOooo---
